

## Trade sectors and products

To be sent back with the application form indicating your products sectors' codes

7-10 October 2026 - Bologna Exhibition Centre

<b>A MATERIALS</b>	
<b>A1</b>	Materials and new technologies
A101	Traditional bitumens
A102	Modified bitumens
A103	Foamed bitumens
A104	Transparent bitumens
A105	Coloured bitumens
A106	Natural powdered bitumens
A107	Conventional and elastomized bitumen emulsions
A108	Resins
A109	Inerts
A110	Alternative recyclable materials for inclusion in asphalt
A111	Alternative reclaimed and recycled products and materials
A112	Specific products for airport runways
A113	Porphyry and basalts
<b>A2</b>	Special conglomerates and eco-compatible treatment processes
A201	Pavement sound-absorbing
A202	Euphonic pavements
A203	PCP pavements
A204	Cold surface treatments
A205	Coloured conglomerates for cycle paths
A206	Transparent bitumen conglomerates for urban furniture, paths and gardens
A207	Complex high-modulus conglomerates
A208	Bagged cold conglomerates for pothole repair
<b>A3</b>	Conglomerates and road-surface safety treatments
A301	Draining conglomerates
A302	Antiskid
A303	SMA
A304	Grenu conglomerates
A305	Slurry seal
A306	Single and double layer surface treatments
A307	Mechanical treatments (brooming and peening)
<b>A4</b>	Polymers, additives, natural and synthetic aggregates, expanded clay, rubber powder, granulated blast furnace slag
A401	Various polymers
A402	Solid and liquid additives with anti-icing systems, anti-erosion, anti-noise, anti-oxidants, adhesion activators, flux activators, thermoregulators, dyes etc...
A403	Fibreglass
A404	Cellulose fibre
A405	Powdered bitumen
A406	Granulated blast furnace slag
A407	Treated materials
A408	Rubber powder
A409	Expanded clay
A410	Natural and synthetic aggregates
<b>A5</b>	Bituminous membranes, geotextile nets
A501	Gallery waterproofing
A502	Bridge waterproofing
A503	Viaduct waterproofing
A504	Gas and water pipe cladding and coatings
A505	Bituminous membranes waterproofing for bridges and viaducts scaffolds and roads reinforcement
A506	Geotextiles for subgrade layers
A507	Fibreglass grids and allied materials increasing load-bearing capacity
A508	Non-woven fabrics for capillary rise prevention
A509	Liquid membrane applications
<b>A6</b>	Sub-services, drainage, joints and sealants
A601	Vertical sand drainage systems
A602	Retaining wall water-drainage systems
A603	Storm water collection systems from pavement drainage
A604	Couplings for bridges and viaducts
A605	Bituminous sealants for joints and cracks
A606	Crack sealing tape and other materials for pavement and airport-runway repair
A607	Manhole and drain covers, grids
A608	Prefabricated tunnels, crawlspaces and wormholes
A609	Management and maintenance of underground protective meshes
<b>A7</b>	Geotechnics: technology and components
A701	Geogrids and surface reinforcement systems
A702	Reinforced earth construction
A703	Gabion retaining structures
A704	Wire mesh overlays in mountainous areas
A705	River bank retaining mesh
A706	Fencing and enclosures
A707	Rockfall barriers
A708	Avalanche and landslide barriers
A709	Sheet piling
A710	Pile-driving technology
A711	Landslide mitigation anchoring systems
A712	Retaining walls
A713	Bridge and tunnel building
A714	Soil consolidation and land reclamation products and processes (geomats, etc.)
A715	Steel culverts
A716	Corrugated metal sheet ducts
A717	Road infrastructures
<b>B EQUIPMENT</b>	
<b>B1</b>	Cold and hot bituminous conglomerates and accessory components production plant
B101	Fixed production plants
B102	Mobile production plants
B103	Self-propelled plants
B104	Bituminous emulsion production plants
B105	Modified bitumen production plants
B106	Hot stock aggregate modules
B107	Dust-retaining filters
B108	Noise abatement systems
B109	Vapour, fume and odour extraction systems
B110	Plant and equipment safety systems
B111	Weighing bridges and scales
B112	Tools
B113	Operational management software
B114	Hydraulic equipment
B115	Bitumen pump
B116	Plant and equipment accessories
B117	Rotary dryers
B118	Bitumen emulsion production plants
B119	Modified bitumen production plants
<b>B2</b>	Machines for laying and compacting bituminous conglomerates
B201	Self-propelled compactors
B202	Dynamic action towed compactors
B203	Crawler and wheeled pavers
B204	Static and vibratory rollers
B205	Wheel rollers
B206	Combination rollers
B207	Vibratory plates
<b>B3</b>	Milling machines / stabilizers, recyclers
B301	Large depth machinery
B302	Shallow depth machinery
B303	Lime, cement or bitumen stabilizers
B304	Emulsion or foamed bitumen recycling plant
B305	Milling tools and accessories
<b>B4</b>	Machines selecting inerts and scarification materials for pavements and underlays
B401	Systems, machines and plant for the treatment, selection and recycling of inerts and materials
B402	Demolition and crushing equipment
B403	Large jaw crushers
B404	Rod mills
B405	Milled material crushers and allied tools
B406	Vibrating sieves
B407	Specialized conveyor belts
B408	Special milled-material feeder systems
<b>B5</b>	Roller, paver and allied equipment transport vehicles
B501	Trailers
B502	Low-bed trailers
B503	Tractors
B504	Lightweight trucks
B505	Pick up trucks
B506	Vehicle Design - Construction

B507	Abnormal road transport vehicles
<b>B6</b>	<b>Machinery and equipment for the transport of inerts, bituminous conglomerates, emulsions and liquid bitumen</b>
B601	Trucks
B602	Road tankers
B603	Dumpers
B604	Insulated bituminous conglomerate transport containers
B605	Container closing systems
B606	Mastic asphalt road tankers
B607	Hot bitumen and emulsion spray tankers
<b>B7</b>	<b>Excavation, demolition, earth moving and construction machinery and equipment</b>
B701	Airport runway paving equipment
B702	Wheel/crawler excavators
B703	Mini-excavators
B704	Skid Loaders
B705	Wheel/crawler loaders
B706	Rigid and articulated backhoes
B707	Dozers
B708	Graders
B709	Demolition hammers
B710	Buckets
B711	Crusher buckets
B712	Mixer buckets
B713	Machinery and equipment for working at height
B714	Equipment for special excavation requirements
B715	Tractors
B716	Perforation and tunnelling machinery and equipment
B717	Tunnel construction and repair machinery and equipment
B718	Bridge and viaduct construction and repair machinery and equipment
<b>B8</b>	<b>Machinery and equipment for road construction and maintenance sites</b>
B801	Joint cutters and asphalt saws
B802	Slope mowers
B803	Joint casting machinery
B804	Pavement smoothing and reshaping machinery
B805	Sand and gravel spreaders
B806	Truck-mounted maintenance equipment
B807	Tamping and compacting equipment
B808	Automatic sprinklers
B809	Road kerbing machines
B810	Milling machines
B811	Stabilizers
B812	Brush cutters
B813	Telescopic arms
B814	Levelling mixers
B815	Hydroseeding machines and equipment
B816	Demolition machinery and equipment
B817	Hydrodemolition machinery and equipment
B818	Reclamation machinery and equipment
B819	Underground pipe and cable laying machinery and equipment
B820	Tunnelling machinery and equipment
B821	Road construction machinery components and equipment
B822	Grass mowing machines and equipment
B823	Trench cleaning machines
B824	Dust collectors
B825	Aerial platforms
B826	Snowplough blades
B827	Snowploughs, salt spreaders, snowblowers
B828	Pile drivers
B829	Cranes
B830	Forklift trucks
B831	Worksite lighting systems
B832	Hydraulic drills
B833	Abrasion products and techniques
B834	Shot blasting / peening machines
B835	Scarifiers
B836	Compressors
<b>B9</b>	<b>Wheel Tyres</b>
B901	Wheel tyres
<b>B10</b>	<b>Heated tanks for bitumen emulsion storage</b>
B1001	Horizontal and vertical bitumen storage tanks
B1002	Mixer storage tanks
B1003	Tank and pipe insulation systems
B1004	Boilers and Burners
B1005	Horizontal and vertical thermal fluid boilers
B1006	Bitumen and asphalt mastic heaters
B1007	Oil, methane, diesel, gpl and Gnl fuelled burners
B1008	Combined methane and BTZ-fuelled burners for inert atmosphere furnaces
B1009	Lignite Burners
B1010	Burner safety devices
B1011	Burner combustion control systems
<b>B11</b>	<b>Joints, supports and sealants</b>
B1101	Mechanical expansion joints (finger, omega, etc.)
B1102	Flexible joints (bitumen, neoprene, elastomeric resin, etc.) fillers
B1103	Bitumen sealants and sealing systems
B1104	Rubber insulators
B1105	Structural supports
<b>C</b>	<b>APPLICATION TECHNOLOGIES</b>
<b>C1</b>	<b>Combined emulsion, bitumen and grit spreaders, road sweepers</b>
C101	Thermally insulated tankers
C102	Spreader tankers and distribution bars
C103	Grit and salt spreaders
C104	Bitumen sprayers
C105	Road sweepers
C106	Motorized sweepers - motorized brushes
C107	Pothole repair machines
<b>C2</b>	<b>Slurry-seal macchines</b>
C201	Slurry-seal production and laying machines
<b>C3</b>	<b>Fixed or on-site bituminous conglomerate recycling plant machinery and equipment</b>
C301	Technical modifications and accessories for existing plants
C302	Hot mix double-drum recycling plants
C303	Hot recycling with recycling ring
C304	Hot drum mixer recycling
C305	Self-propelled recycling
C306	On-site recycling using heating panels
C307	On-site recycling with draining conglomerate
C308	On-site recycling with emulsion and foamed bitumen
C309	Equipment for inclusion of alternative materials in production cycle
C310	Fixed cold recycling plants
C311	Styrofoam ramps and accessories
<b>C4</b>	<b>Laboratory machines, materials-testing equipment and software</b>
C401	Conventional systems
C402	High-yield systems
C403	Georadar
C404	FWD
C405	ARAN
C406	Equipment for fixed laboratories
C407	Mobile labs
C408	Rotary Compactors
C409	Rheometres and viscosity gauges
C410	Materials-testing laboratory software
C411	Topographic and geodetic software
C412	Design, analysis and calculation software
<b>C5</b>	<b>Fault detection and diagnostic equipment</b>
C501	Alarms, detectors and sensors
C502	Apps - Hardware - Software
C503	Road and infrastructure construction software and hardware
C504	Automatic levels
C505	Laser measuring devices
C506	Topographic and geodetic instruments
C507	Geotechnical instrumentation
C508	Measuring and monitoring tools
C509	Satellite tracking instrumentation
C510	IoT, connectivity systems and technology
C511	GPS
C512	Detection and diagnostic equipment and instruments
C513	Testing and inspection equipment and instruments
C514	Photogrammetry
C515	Geo-diagnostic surveying
C516	Digital worksite systems and technology
C517	Remote control systems
C518	Limited access point vehicle detection - Bollards
C519	Videosurveillance
C520	BIM, Building Information Modelling
C521	Digital manufacturing
C522	Driverless systems - Artificial Intelligence
C523	Digital service platforms
C524	Augmented reality, tools, systems and applications
C525	3D Printers
C526	Detection and measuring instruments, drones, geospatial technology
C527	Entertainment
C528	Facilities & Mobility
C529	Food & Beverage

C530	Home Automation providers
C531	Mobility management
C532	Mobility professionals and experts
C533	Technological networks and sub-services in urban areas
C534	Security systems
<b>D</b>	<b>SERVICES</b>
<b>D1</b>	<b>Companies</b>
D101	Construction companies
D102	Road maintenance companies
D103	Landscape design and maintenance companies
D104	Demolition companies
D105	Environmental remediation
D106	Rental companies
D107	Certification companies
D108	Quarries and mines
D109	Service management companies
D110	Vehicle services
<b>D2</b>	<b>Crash barriers, shock / impact absorbers</b>
D201	Screen protective barriers and anti-intrusion systems
D202	Screen protective barriers and noise-dampening systems
D203	Screen protective barriers and architectural systems
D204	Screen protective barriers and wind-shielding systems
D205	Steel road safety barriers
D206	Steel/timber road safety barriers
D207	Concrete road safety barriers
D208	Noise-dampening road barriers
D209	Barriers and structures in various materials combined with natural greenery
D210	Motorcyclist safety barriers
D211	Shock absorbing systems
D212	Diffractors
D213	Jersey traffic crash barriers
<b>D3</b>	<b>Service areas, parking, cycle paths</b>
D302	Tanks
D303	Refuelling systems (fuel - electric recharging)
D304	Fuel producers
D305	Energy producers
D306	Flow metres and worksite distribution systems
D307	Firefighting and burglar alarm systems
D308	Greenery, landscaping and street furniture
D309	Outdoor furniture
D310	Car parks - Platforms - Decking
D311	Parking control and management systems
D312	Cycle paths
D313	Water supply and fountain equipment
D314	Parapets and balustrades
<b>D4</b>	<b>Prefabricated Structures</b>
D401	Accesses and entrances
D402	Highway toll booths and electronic toll-collection systems
D404	Worksite toilet pods and storage containers
D405	Prefabricated construction worker accomodation
D406	Service stations
D407	Workplace catering units
<b>D5</b>	<b>Washing systems</b>
D501	Industrial washing and cleaning
<b>D6</b>	<b>Personal Protective Equipment (PPE)</b>
D601	Insulated work footwear
D602	Work-positioning belts
D603	Fall-protection devices and equipment
D604	Protective gloves
D605	Protective headgear
D606	Protective and high-visibility apparel
D607	Worksite respirators, dust masks
D608	Noise control and sound dampening devices
D609	On-body self-diagnosis devices
D610	Pollutant emission control and containment equipment
D611	First Aid supplies
<b>D7</b>	<b>Signage, road safety and traffic management</b>
D701	Traditional digital and smart signs
D702	Vertical signage
D703	Horizontal signage
D704	Road delineators
D705	Road marking equipment
D706	Cable ducts, edge protectors
D707	Multipurpose kerbing
D708	Roundabouts
D709	Lane dividers
D710	Speed bumps
D711	Rumble strips, acoustic speed deterrents
D712	Elastoplastic laminates
D713	Direction signposting
D714	Paints and plastic material for on-road horizontal signage
D715	Road-marking machines
D716	Ice hazard detection and warning display systems
D717	Road and highway illumination systems
D718	Tunnel illumination systems
D719	Special lighting systems
D720	Signalling lamps
D721	Luminous road signs
D722	Flashing signalling systems
D723	Road safety products and systems
D724	Traffic calming devices
D725	Traffic management apparatus
D726	Variable message panels and electronic systems
D727	Emergency and service vehicle apparatus and equipment
D728	Pedestrian protection barriers
D729	Road accident forecasting/simulation models
D730	Traffic lights - Traffic-light systems
D731	Motocyclist outerwear, crash helmets
D732	Cars and motorcycles manufacturers
D733	Roadside assistance
D734	SOS stations / Fire-fighting stations
D735	Driving schools
D736	LED
D737	Speed recorders / detectors
D738	Braking apparatus
D739	Infomobility
D740	Signage and billboards
D741	Weather monitoring and information display systems
D742	Traffic videosurveillance systems
D743	Safe driving
<b>D8</b>	<b>Analyses laboratories and materials testing</b>
D801	Materials testing laboratories
D802	Geological, geophysical, geomechanical, chemical and physical laboratory analyses
<b>D9</b>	<b>Financial services and miscellaneous</b>
D901	Insurance companies
D902	Banks
D903	Rental companies
D904	Mobility sharing
D905	Car dealerships and mobility services
<b>D10</b>	<b>Institutions, bodies, companies and technical and special service providers</b>
D1001	Public Administration
D1002	Contracting Authorities, motorway operators
D1003	Trade associations
D1004	Engineering
D1005	Certification
D1006	Consultancies
D1007	Quality control
D1008	Environmental management
D1009	Research institutes
D1010	Service companies and software and hardware consultancies
D1011	Universities
D1012	Territorial mapping, detection and network digitation
D1013	Planning and/or construction management
D1014	Mechanical design
D1015	Civil works testing and inspection
D1016	Surveying
D1017	Engineering services
D1018	Geognostic surveys
D1019	Worksite safety coordination services
<b>E</b>	<b>SPECIALIST PRESS AND MEDIA</b>
E1001	Specialist technical publishers
E1002	Technical publications and trade journals
E1003	Online publishing products
<b>F</b>	<b>MISCELLANEA</b>
	Please specify _____
